

Team ID : PNT2022TMID33287

Project Milestone & Activity Planning:

Milestone:

The Modern Technologies are increasing and optimizing the Performance of the Artificial Intelligences (AI) Model.

AI Based Crop Yield Disease Prediction System will helpful for farmers to prevent the crop from the various Disease by identifying the Disease by the process of capturing the Image at the plant and Machine Learning Algorithm will give affected Disease Name.

Project Milestone will give the Best Solution for the farmer using the complete friendly and simple user interface web application to fetching the solution by own.

In addition, we are planned to add a valid Module that is Fertilizer recommendation for the Specific Disease. It can give both Artificial fertilizer and Natural Fertilizer in suggestion manner.

Activity List:

Project Management Planning is an Important task to scheduling the phase of the project to the Team Member.

Activity list shows the various activities that are allocated and Done by the Team Members.

In Project we can Split into the Four Step of Phases

Phrase 1: Information Collection and Requirement Analysis

Phrase 2: Project Planning and Developing Modules

Phrase 3: Implementing the High Accuracy Deep Learning Algorithm to Perform

Phrase 4: Deploying the Model on Cloud and Testing the Model and UI Performance

Agile Methodology for Activity Planning

Agile vs Waterfall
